## Technical Data Sheet

# GLITTER + QUAT

## Remove Stains, Renews Shine & Kills Germs

### Product Description:

Glitter+Quat is a super concentrated cleaning agent, which helps in quick removal of dirt, grime and mild stains. This neutral cleaner (pH=7) is safe for use on tile grouts and tile surface shine. It eliminates soap scum and hard water deposits. Siquat® disinfectant provides the widest range of Germ, Bacteria, and Virus killing action besides a pleasant smell helps in deodorizing of the substrate.

### Application:

- Sweep or Vacuum the surface to remove loose debris.
- For strict stained area make the dilution lesser as required
- Apply solution to area to be cleaned.
- Agitate with mop or soft bristle brush.
- Rinse with fresh water
- Change cleaning solution at least every 200 sq. ft or as needed.

### Dilution:

One liter Glitter+Quat when diluted in fresh water can make up to 40 liters cleaning solution for regular use. However dilution should be lowered for stronger or for less periodic cleanings.

### Packaging:

25 Liters standard size  
6, 10, 25 and 200 liters drum also available on request

### Safety:

Does not contain any harmful, toxic, or aggressive substance that may result in any kind of injury or burn on skin contact. Refer appropriate MSDS before handling and use.
