

TARSOLVE

Tar, Bitumen & Rubber Remover

Product Description:

TARSOLVE is a highly concentrated water-based, alkaline floor & surface cleaning chemical. TARSOLVE is formulated as a heavy-duty industrial floor cleaner, principally for use with industrial scrubbing machines. It is effective for the successful cleaning of both concrete and epoxy floor surface contamination. It also effectively removes Rubber and Bitumen from concrete and metal surfaces.

Features:

- Can be used in tandem with scrubbing machines.
- Does not damage the surface below.
- Much easier as compared to manual scrubbing.
- Rapidly acting.
- Removes stubborn stains such as tire marks, rubber and bitumen.
- Removes tire marks from concrete, road and epoxy flooring.
- TARSOLVE is biodegradable.
- Water-Rinsible

Application:

TARSOLVE is designed for use with mechanized scrubbing machines, Nevertheless, it can be used with traditional manual cleaning methods. The concentrated chemical must be diluted. The concentrated The chemical must be diluted with water according to the type of contamination and the application method Using warm water to dilute

the chemical solution will assist in the speed of cleaning and reduce the concentration of the chemical required. For manual usage follow a chemical concentration of 3-5% TARSOLVE to water. For use in machine scrubbing use between 0.5-3% chemical concentration.

Active Ingredient: CAS Number

Aqua	: (CAS No.) 7732-18-5
Caprylic acid	: (CAS No.) 124-07-2
2-phenoxyethanol	: (CAS No.) 122-99-6
Potassium hydroxide	: (CAS No.) 1310-58-3

Physical Properties:

Physical State	: Liquid.
Colour	: Clear.
Odour	: Distinct Odour.
pH	: 13.6 @ 20°C
Flashpoint	: N/A

Storage:

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° to 28°C (46° to 82°F) unless otherwise labelled. Optimal storage is at the lower half of this temperature range. Do not return any material to its original container to prevent contamination of unused products.

Packaging:

Available in 10 litres, 25 litres and 200 litres Packaging.
