

CERA GLOW

1

Ceramic & Toilet Bowl Cleaner

Product Description:

CERA Glow is a sulphamic acid-based cleaner for both toilet bowls and ceramic surfaces. It helps in eliminating stains and odours that build up over time. CERA has a high-strength formulation to get rid of the toughest of stains in the shortest of times.

Key Features & Benefits:

- Can be used for a wide range of applications.
- Can be used to clean mortar or cement stains.
- Comes in an easy-to-use spray bottle.
- Due to its specific composition, the product is economical in use.
- Fast working and effective.
- Relatively lesser fumes than other alternatives.
- The product is biodegradable.

Application Guidelines:

Use neatly all around the bowl and under the rim. Leave CERA Glow to sit for around 3-5 minutes. Then flush the toilet bowl normally; The following whirlpool of water will drain the chemical, leaving the toilet bowl spotless. For general use on ceramics, dilute every 1-part CERA Glow with 10 parts water for general cleaning, for tough stains dilute 1-part CERA Glow with 6 parts water. Dunk your cleaning medium (cloth, brush, sponge, etc) into the diluted mixture, wet and then apply to the ceramic that needs cleaning. For tougher stains a few repeated tries will be required.

Packaging:

Available in 6 litres, 25 litres and 200 litres packaging.

Storage & Shelf life:

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° to 28°C (46° to 82°F) unless otherwise labelled. Optimal storage is at the lower half of this temperature range. Do not return any material to its original container to prevent contamination of unused products.

Safety:

Refer to the appropriate MSDS before handling and using it. Due to the product composition based on the caustic blend, handling products without protective gloves is not recommended.

CERA GLOW

Technical Data:

Property	Typical Value
Physical State	Liquid.
Colour	Blue Liquid.
Odour	Distinct Odour.
pH	2 @ 20°C
Flashpoint	N/A

Active Ingredient:	CAS Number
Aqua	(CAS No.) 7732-18-5
Sulfamic acid	(CAS No.) 5329-14-6
D'Limonene	(CAS No.) 5989-27-5
Surfactants	N/A
